PROFESSIONAL SUMMARY

Data Analyst and Software Developer with strong expertise in Python, SQL, and Machine Learning, experienced in building data-driven applications and analytics solutions. Skilled in data cleaning, exploratory data analysis (EDA), statistical modeling, and dashboard development. Proven ability to develop scalable systems and AI-based solutions through real-world projects and internships, with a focus on delivering actionable insights and improving decision-making.

ACADEMIC DETAILS

Degree/Certificate	University/Board	Institute/School	Year of Passing	CGPA
B. Tech	RGPV	SGSITS, Indore	2027	-
Diploma	RGPV	Govt. Women's Polytechnic College	2024	89.0
12th	CBSE	Mother Teresa School	2021	84.2
10th	CBSE	Mother Teresa School	2019	88.0

EXPERIENCE

Data Analyst Intern – CODTECH IT SOLUTIONS

Jun 2025 – Jul 2025

- Performed data cleaning and preprocessing on large datasets using Python (Pandas, NumPy), improving data quality and usability
- Wrote optimized SQL queries for efficient data extraction and analysis
- Conducted exploratory data analysis (EDA) to identify patterns, trends, and anomalies
- Developed interactive dashboards using Tableau and Excel to support business decision-making
- Generated analytical reports providing actionable insights for stakeholders

Java Developer Intern – StaxTech (Remote)

May 2025 – Jun 2025

- Developed backend modules using Java and object-oriented programming principles
- Improved application performance through code optimization and efficient logic design
- Performed debugging, testing, and integration of software components
- Collaborated in Agile development environment using version control (Git)

TECHNICAL PROJECTS

AI Job Analyzer (Candidate & Recruiter Portal)

- **Tech Stack:** Python, NLP, Scikit-learn, Pandas, NumPy
- Built a dual-module AI system for candidates (skill gap analysis &

recommendations) and recruiters (automated candidate shortlisting).

- Applied NLP techniques including text preprocessing, TF-IDF vectorization, and cosine similarity to match job descriptions with resumes.
- Implemented intelligent skill extraction to identify missing competencies and improve job–candidate matching accuracy.
- Generated actionable insights to enhance hiring efficiency and career readiness.

e-₹UPI Voucher Generation System for MP Government Schemes

Faculty Mentor: MP State Govt. Collaboration Project Team

- Implemented Aadhaar-based beneficiary validation and QR/SMS-delivered e-₹UPI vouchers for secure, targeted fund utilization.
- Designed modules for real-time tracking, reporting, and accountability to enhance transparency and minimize fund misuse.
- Developed a purpose-specific voucher system enabling redemption only for approved items like educational materials and laptops.

QuickCourt – Local Sports Booking Platform

- **Tech Stack:** HTML, CSS, Bootstrap, JavaScript, Python Flask, Firestore, Charts.js
- Developed a full-stack platform for real-time sports facility booking with OTP-based authentication and user dashboards.
- Implemented role-based access for users, admins, and facility owners with analytics visualization using Charts.js.
- Collaborated within a 4-member team using GitHub for version control and agile workflow.
- **GitHub Repository:** github.com/chetnasingh31/quickcourt

Samudra Suraksha – Coastal Safety and Monitoring System

- **Tech Stack**: Python Flask, Firebase, Leaflet.js, Charts.js
- Built a web-based platform for real-time coastal safety monitoring, integrating geolocation and live alert systems.
- Designed dashboards for authorities to analyze incident reports, broadcast alerts, and visualize safety data trends.

TECHNICAL SKILLS

- **Programming:** Python, Java, C, C++, SQL, R
- **Data Analytics & ML:** Pandas, NumPy, Scikit-learn, EDA, Statistical Analysis, Machine Learning
- **Visualization & BI:** Tableau, Excel, Charts.js, Dashboard Development
- **Web Development:** HTML, CSS, JavaScript, Bootstrap, Flask, REST APIs
- **Tools & Platforms:** MySQL, BigQuery, Jupyter Notebook, Google Colab, Git, Linux
- **Core Concepts:** Data Structures & Algorithms, OOP, SDLC, Agil

EXTRACURRICULAR ACTIVITIES

HackX 3.0 – Jaipur

- Participated in a national-level hackathon showcasing creative problem- solving and coding skills.

Odoo Hackathon – Gujarat

- Built a prototype ERP solution during a state-level open-source.
